

about foolscap

Foolscap was founded in 1999.

Our mission is to hold a medium-sized convention of about 450 to 700 people emphasizing paper media - books, comic books, and art. Currently, our membership averages about 150 people.

Our goals include creating an intellectually stimulating convention, providing an environment conducive to the conducting of business by industry professionals, strengthening the links among the various groups of fans in the Pacific Northwest, and making an arena for people to discover science fiction, fantasy, and convention fandom.
